Chapter 17.76

PARKING AND LOADING REQUIREMENTS

Sections:

17.76.010 Parking and storage of certain vehicles.

17.76.020 Minimum off-street parking and loading requirements.

17.76.030 Abatement of dangerous buildings.

17.76.010 Parking and storage of certain vehicles.

Automotive vehicles or trailers of any kind or type without current license plates shall not be parked or stored on any residential zoned property other than in completely enclosed buildings. (Ord. 386 § 1407, 2002)

17.76.020 Minimum off-street parking and loading requirements.

Off-street motor vehicle parking and loading space shall be provided on any lot on which any of the indicated structures and uses are hereafter established. Such space shall be provided with vehicular access to a street or an alley. For the purpose of

computing the number of parking spaces available in a given area, the formula of two hundred fifty (250) square feet per parking space shall be required.

Minimum off-street parking and loading requirements, which shall be applicable in all planning commission districts to the structures and uses indicated, shall be set forth in the Schedule of Minimum Off-Street Parking and Loading Requirements, adopted by reference and declared to be a part of this title. If minimum off-street parking and loading space, required in said schedule, cannot be reasonably provided on the same lot on which the principal structure or use is conducted in the opinion of the planning commission, planning commission may permit such space to be provided on other off-street property, provided, that such space lies within four hundred (400) feet of the entrance to such principal structure or use.
